❑ Unfair Practices Subject to Penalty

- Team members may communicate verbally if they are alive in the match or when all

team members are dead.

- The player is deemed dead when the screen is completely faded to black. If a bug occurs and the screen doesn't fade to black, the player is deemed dead three seconds after he/she has fallen.
- Any player who has died cannot communicate by ANY means (No gesture or verbal communication will be allowed) with any other team member or opponent until the beginning of the next round.
- If a player continues to communicate after he/she is killed, the team may be given a warning or lose by default at the referee's sole discretion.
- Boosting (stepping on top of own team player) is allowed in play.
- Binding Duck to scroll wheel is not allowed.
- C4 must be installed at a viewable location. Installing C4 at a location where a boost is required is allowed.
- Silent C4 installation is considered bug play. Such an offense may result in a warning or loss of all remaining TR rounds at the sole discretion of the board of referees.
- Throwing grenades over buildings in all maps are allowed.
- Any use of the flash bang bug will result in a warning at the minimum or loss by default for the offending team.
- Use of personal model/skins (includes weapon skins)
- Use of personal map texture
- All cheat programs
- Use of map bugs in play (e.g. map swimming, auto aim, etc.)
- Use of unfair but available scripts (e.g. silentrun, attack+use, centerview script, norecoil script, etc.)
- The server master can and will check for the use of any unfair practice or script, even those not listed above, during each match.
- If referee decides that external conditions (Press, Team Leader, Player, Spectator, etc) give unfair advantage to a player, the team may be given a warning or lose by default at the referee's sole discretion.
- If a problem occurs with flash bang bug, the referee reviews the demo file and the offending team loses the round. The match continues normally.
- HLTV Proxy will join the game servers for Tournament Broadcast
- To test for HLTV flash bugs, players must follow the directions of the server master and/or the referees.

☐ **If disconnection occurs during a match**

- If all the players cannot play due to an unintended, unforeseen accident such as server stoppage,
 - Before the 3rd round starts: restart the match
 - After the 3rd round starts: Disconnected player must re-connect to the server. The round is continued unpausing, and if the disconnected player cannot connect to the server, all players must wait during the freeze time after the round until the disconnected player connects to the server. At this time, the match may continue by unpausing. (Not a restart)
 - If up to 3 of all players are unintentionally disconnected: The score for that round is discarded. The game is paused after the round during the freeze time, and all players wait until the disconnected players are connected to the server. When all players are connected, the match may continue by unpausing the game.
 - In the case of intentional disconnection, the referee may decide to end the match with the offending team losing by forfeit.
 - Protests can only be filed by the team leader (ie: a player that represents the team)
 - If a player does not agree to any rules, he/she can express his/her protest to a referee before the completion of a match. Any intentional refusal to connect to the match server can result in a default loss for that team with the decision to be made at the sole discretion of the referee.
 - If a rematch is decided by the head referee, the team that does not follow this decision will be subject to disqualification.
- ❑ **These rules are for the WCG 2008 National Championship and are subject to modification in the following aspects.**
- Use of most recent patch/version release of each official game within WCG committee's own discretion.
 - Changes to in-game settings and options necessitated by the use of most recent patch version/release
 - Cheat Protection Program release and/or cheat protection functions
 - Game settings and/or operations guidelines dictated by differences between online and LAN Tournaments
